## What you may need to choose:

ITEM:	WHY:
Embalming or Not	If a public viewing is involved embalming is required
A casket	Many choices are available, some Cemeteries have minimum requirements for Entombments (i.e. a Metal Casket with a rubber Gasket)
A burial receptacle	Burial containers are required by most cemeteries. The minimum requirement is normally a grave liner, all it does is prevent the ground from collapsing, a Vault is a metal or concrete container with a liner.
An Urn	Cremains are returned in a plastic temporary container, some cemeteries will allow it to be buried or placed in a niche. Someone can take it home and it is all that is needed if the cremains are to be scattered. In addition we have many urns for you to choose from. Please note some cemeteries include a specific urn in the purchase of a niche so be sure to let your funeral director know.
Prayer cards or Memory Folders	A particular card and verse can be selected or a custom card can be made. We would need a picture and the special verse requested.
A Life Story Funeral	We would need twenty pictures and additional biographical background to prepare a customized Memory Folder and DVD's
A Marker or Inscription	Information For:
